

PUBLIC NOTICE
For
Air Quality Operating Permit
for Cedar Hill Compressor Station of Enterprise Field Services, LLC

Enterprise Field Services, LLC at PO Box 4324; Houston, TX 77210-4324 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its Cedar Hill Compressor Station. The owner of this plant is Enterprise Field Services, LLC. The exact location of the facility is at latitude 36 degrees, 56 minutes, 58 seconds and longitude -107 degrees, 54 minutes, 27 seconds. To aid in locating this facility, the approximate location is 2.2 miles northwest of Cedar Hill in San Juan County, New Mexico. This application file has been assigned an Operating Permit Number P173-R3 and TEMPO Agency Interest ID No. 1331.

Previously, the plant received an air quality construction permit and is in operation.

The main purpose of the plant is transports natural gas from the gathering system to a gas processing plant. Inlet gas is dried by a filter separator, compressed, and then dehydrated by the glycol units. Internal combustion engines then compress natural gas.

This operating permit application is for a permit renewal. Per 20.2.70.401.C.(4) NMAC, this permitting action involves renewing the operating permit and removing Units 5, 6, and 7 from the permit.

The estimated maximum air pollutant emissions to the atmosphere, from this facility after the requested operating permit is issued, are as follows. Emissions are expressed in tons per year (tpy). Nitrogen Oxides (NO_x) at 89.6 tpy (-27.5); Carbon Monoxide (CO) at 185.8 tpy -0.4); Volatile Organic Compounds (VOC) at 60.2 tpy (-16.6); Sulfur Dioxide (SO₂) at 3.6 tpy (no change); Particulate Matter 10 microns or less (PM₁₀) at 2.5 tpy (no change) , and Particulate Matter 2.5 microns or less (PM_{2.5}) at 2.5 tpy (no change). The facility is a minor, < 100,000 tpy CO₂e, source of green house gas emissions.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance.

The NMED has made a preliminary determination that this facility will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 7, 61, 70, 71, 72, 73, and 75; 40 CFR 50; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before July 31, 2015.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P173R3 by contacting Joseph Kimbrell at the New Mexico Environment Department, Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816. The Department contact in Santa Fe is Joseph Kimbrell at 505-476-4347.
